
LEARNING SUPPORT

Title of Session HIGH SCHOOL LEARNING SUPPORT PLC #5

Description High school learning resource teachers and department heads will continue working toward a common vision, developing goals that inspire meaningful and relevant learning for CISVA students with diverse needs. Collaboratively, this group will examine educational research and meet with leaders in the field to apply innovative and effective methods and strategies that support the development of the whole child to his or her full potential. The focus areas for the upcoming year are on fostering mental health awareness for students and teachers, as well as developing a plan to map out interventions and resources. This group will continue to utilize the PATH process to build effective support networks and meaningful action plans for students to prepare for the transition to adult life. Literacy assessments and follow up interventions as well as differentiation in the classroom will also be addressed.

Facilitator(s) Jennifer Tong / Director of Learning Support
Claudia Gastaldo / Educational Consultant

Intended Audience It is strongly recommended that all high school learning resource department heads and learning resource teachers attend the PLC meetings regularly throughout the year. At least one learning resource teacher from each high school team is expected to consistently attend each meeting.

Contact Person/email Claudia Gastaldo, cgastaldo@cisva.bc.ca
